# Sporting News Comment Until October the First Only

The ignominious death of the Utahladah league season, and perhaps the league itself, at Ogden last Tuesday is a matter of regret. That it should come just at a time when the teams, were beginning to pick up the fine points of baseball and keep scores down and the season and perhaps the fine points of baseball and keep scores down as the points of baseball and keep scores down as the points of baseball and keep scores down as the points of baseball and keep scores down as the points of baseball and keep scores down as the points of baseball and keep scores down as the points of baseball and keep scores down as the points of baseball and keep scores down as the points of baseball and keep scores of the score and some exception with the points of baseball and keep scores of the score and some exception with the points of baseball and keep scores of the score and some exception with the points of baseball and keep scores of the score of the sco

And the fans are trying to sale and standpoint it was ridiculous. There he was, on the ground with ten Pocatello players, all in uniform, it is said, and ready to play. He certainly demonstrated a lack of confidence in his men when he tried to play the outsiders.

Manager Gimlin of course protested. He was right. He pointed out in black and white the provision of the league constitution that no players of any team shall play with any other team than that to which they belong. And Mr. Rand made the startling plea that the "Rio Grandes had dicbanded." "Father" Gimlin, who played ball perhaps before Mr. Rand was out of kilts, demanded the certified release of Shannon, Risley. Hopkins and Pendergraft, which, of course, were not available. This settled it. Rand was obdurate and there was no game.

The programme for the four days turf meeting which begins Wednesday Sept. 26, was arranged by T. J. Mont gomery yesterday. It shows as follows:

First race, 2:25 pace, purse \$150.

Second, 2:17 trot, \$200.

Third, half-mile heats, \$100.

This settled it. Rand was obdurate and there was no game.

Then came the funeral sermon from President Horn. unholding Mr. Gimlin in his stand, declaring the season at an end and giving Ogden the pennant with a deserved percentage of 800. President Horn did the right thing in censuring the two deserting teams; he might have rubbed it in a little more vigorously, the circumstances justifying it.

First race, 2:20 pace, pace of 2:00.

Third, half-mile heats, \$100.

Fourth, three-fourths mile running, \$100.

Sixth, five and one-half furlongs running, \$100.

Seventh, three-fourths mile running, \$100.

Eighth, one mile running, \$125.

The contest occurs in the arena inside the track, and each of the cowboys has his own horse and a fresh steer for each trial. The contestant is placed back of a line while off to one side is the pen containing the steers. At a given signal one is released, much after the fashion of a genuine bull fight, and the rider's aim is to throw a rope around the steer's hoofs and securely tie the animal, as though about to brand it, in the shortest time possible. Some idea of the adeptness of the cowboy in this line can be obtained from the statement that the world's record for roping and tying a steer is about forty-two seconds. The men who are to contest are recognized among the best in the country, and the event and the sight of that many real cowboys mounted on cayuses ought in itself to be an attraction.

Finds Wonderful Relief in His First Month's Treatment, Read His Remarkable Story.

H. GERWING, 2ND WEST ST., BET. 12TH AND 13TH SOUTH.

Mr. Gerwing says:—"I am well known in this vicinity and my friends know how I have suffered. I have had catarrh for twenty years—it affected my eyesight so I staggered like a drunken man, and had to wear glasses continually. My head and nose clogged up. I was short of breath, hawked and spit continually, and had a constant ringing in my ears. My kidneys were also affected so I could scarcely work at all.

Such was my case when I consulted Drs. Shores last August. The 25th of August I began their treatment, and almost immediately began to mend. Today I can see to walk nicely without glasses, the noise in my ears has ceased, my head feels lots better, and my kidneys have ceased to hurt—in fact I feel splendid and can work with any man now. I am simply astonished at the wonderful work of these doctors, in one short month, and you can rest assured I shall recommend them to my friends. I shall be glad to have any sufferer call on me for verification of this statement.
